

Access Scope Cases G

GAZ5-2026-22 | boundary edges

Link share

A share link grants access only to the intended material, not to the sharer's other library items. Id GAZ5-2026-22.

Reindex

Reindexing material does not change who may access it; authorization is re-evaluated per request.

借用引用

无权用户不能借用他人的引用标签来获得对应资料的检索权。

Nested chartbook

A nested chartbook does not inherit the parent's mounted material unless explicitly mounted.

Export scope

An exported citation panel lists only sources the recipient is authorized to open.
