

Failure Cases

GFD2-2026-12 | degraded expectations

Index down

When the vector index is down, the system reports a degraded state and must not claim no evidence exists. Id GFD2-2026-12.

Partial hydration

When only some evidence hydrates, the answer marks the missing items rather than silently dropping them.

恢复探测

恢复只有在带租户与图册过滤的探测通过后才成立;不带过滤的成功查询不算恢复。

Retry bound

SEV-3 operations retry twice with bounded backoff, then surface the failure.
