

Release Policy Register V2

GRP-2026-01 | latest ready version

Version rule

Version V2 is the latest ready version. A new request defaults to V2, but a canvas pinned to V1 keeps citing V1 until the user explicitly migrates it.

V2 values

In version V2 the evidence retention period is 45 days, the final approval role is Reliability Council, and the manual-review score is 90.

默认版本

新请求在未指定版本时默认使用 V2；V2 的最终批准角色为 Reliability Council，人工复核分数阈值为 90。
